

Comprehensive and Integrated EHS Management for New ESG Standards

About Perillon - a Lisam Company

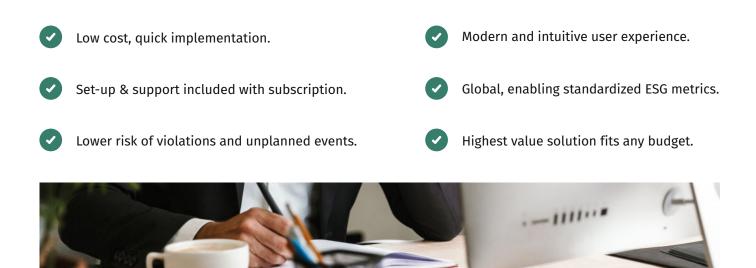

Perillon is an established provider of integrated EHS Management software solutions committed to customer experience and service as its top priority.

In 2019, Perillon became part of Lisam, a global leader in SDS/Chemical Management software, serving more than 1,700 customers from 24 worldwide locations.

Together, Perillon and Lisam provide the most intuitive and the easiest-to-implement cloud technology platform for industrial corporations, setting the standard for how corporate leaders efficiently meet new Environmental, Social and Governance (ESG) goals. Perillon's comprehensive and modernized set of EHS applications help employees at all levels in the organization reduce risk and increase productivity.

Delivering Value to Our Customers

Integrated EHS Management Cloud Platform

Compliance Calendar: Track date-driven tasks including custom notifications and escalation workflows.

Audits and Inspections: Reduce risk with custom input forms including finding triggers and corrective actions.

Unplanned Events: Customize incident management workflows with integrated corrective actions.

Environmental Data: Manage new ESG standards at all levels of organization, accurately.

SDS Distribution: Up to date SDS documents accessible to all employees.

Chemical Tracking: Manage material quantities and locations enterprise-wide.

File Management: Centralize documents, images, any file type.

Mobile: On the go actions, incidents, assessments and documents.

Quick Entry: Express entry of observations and near misses designed for any employee, any skill level.

Dashboards/Reporting: Quick data output to visualize ESG metrics and trends.

Client Systems Integration: Automatic and encrypted data flow from any system.

Self-configuration: Customize layouts, fields, workflows and input forms.

User Management and Security: EHS data segregated by user groups/permission-based.

Global Languages: Support for over 50 languages.

Focused on Customer Experience, Service and Value
